### Strengths

- Secure HTTPS connection
- Mobile viewport configured
- Rooms or accommodation content detected

## Verified Findings

### **[HIGH] No room booking route detected**

**Category:** Booking Journey

**Evidence:** No recognised hotel booking link was found during the scan.

**Commercial Impact:** Guests may be unable to move directly from browsing the website into a room booking.

**Recommended Action:** Add a prominent direct-booking CTA linked to a working booking engine.

### **[HIGH] Rooms detected without booking path**

**Category:** Booking Journey

**Evidence:** 1 room or accommodation page(s) were detected, but no recognised booking link was found.

**Commercial Impact:** Guests can view accommodation but may face unnecessary friction when trying to book.

**Recommended Action:** Place prominent booking calls to action on accommodation pages.

### **[LOW] Google Analytics not detected**

**Category:** Analytics

**Evidence:** RK Monitor did not detect common Google Analytics or Google Tag Manager markers.

**Commercial Impact:** The property may have limited visibility into website and booking behaviour.

**Recommended Action:** Confirm whether analytics are configured and tracking useful conversion events.

## Recommended Next Step

Review and address the verified findings above, prioritising issues that may affect the guest journey or direct booking experience.
